

Task 2 : Data Visualisation Report

Intern Role : Data Analyst

Intern Name : Utsa Basu Das

Dataset : Superstore Sample Data

Tools used : Power BI

Dashboard Summary

The Superstore Report Dashboard provides a comprehensive overview of sales performance, profitability, and customer behavior.

Key Performance Indicators (KPI Card)

Total Sales: 23,26,534.35

Total Quantity Sold: 38,654

Total Profit: 292.30K

Customer Count: 804

These KPIs offer a quick snapshot of overall business performance.

Sales by Region (Bar Chart)

It compares sales across West, East, Central, and South regions.

The West region generates the highest sales, while the South region shows comparatively lower performance.

Insight: Business is strongest in West & East. There is potential for growth in the South region.

Regional Manager Performance (Table)

Displays total sales handled by each regional manager to evaluate regional contribution and accountability. Helps analyze accountability and leadership performance by region.

Sales by Category (Pie Chart)

Categories: Office Supplies, Furniture, Technology

Office Supplies contribute the highest share of total sales.

Insight: Office Supplies is the primary revenue-driving category.

Profit by Segment (Donut Chart)

Segments: Consumer, Corporate, Home Office

The Consumer segment generates the highest profit.

Insight: Consumer customers are the most profitable segment.

Sales by Ship Mode (Tree Map)

Ship Modes: Standard Class, Second Class, First Class, Same Day

Standard Class shipping accounts for the majority of sales.

Insight: Customers prefer cost-effective shipping options.

Conclusion

This dashboard effectively transforms raw sales data into actionable business insights. It highlights top-performing regions, profitable customer segments, and growth opportunities, demonstrating the power of data visualization in strategic decision-making. The company performs strongly in the West region, earns maximum revenue from Office Supplies, and generates highest profit from the Consumer segment. Standard shipping is the most preferred mode. However, there is growth potential in the South region.
